

World Cup 2026 Fantasy Draft

League rules & bot commands

Format

5 players, 48 nations from the 2026 World Cup. **Snake draft:** pick order is randomised; the order reverses every round. With 48 teams you each end up with **9 or 10 countries**. Once everyone is drafted, the league is live until the final whistle.

Scoring - two independent ways to earn points

1. Match points

Awarded by admin via `/set_result` after every match. Stage doesn't matter - group, R32, R16, QF, SF and the final all use the same rule.

Winner earns goal-differential points. Loser earns 0. Draws score nothing.

Examples:

- England 3-0 Ghana => England **+3**
- Spain 2-1 Germany => Spain **+1**
- France 1-1 Italy => no points either way
- Brazil 4-0 Korea => Brazil **+4**

2. Stage advancement (one-time per country)

Awarded by admin via `/set_stage_reached` after each knockout round is settled. Each country earns each stage bonus at most once.

Reach Round of 32	+2
Reach Round of 16	+3
Reach Quarter-final	+5
Reach Semi-final	+8
Reach Final	+12
Champion	+20

Maximum from one team running the table:

2+3+5+8+12+20 = **50 pts**, on top of every match-win along the way.

Commands

Everyone	
<code>/join</code>	Sign up for the league.
<code>/players</code>	List everyone who has joined.
<code>/order</code>	Draft order + whose turn it is.
<code>/pick <country></code>	Draft a country on your turn.
<code>/available</code>	Undrafted teams (by group).
<code>/myteam</code>	Your countries & per-team pts.
<code>/standings</code>	Full leaderboard w/ breakdown.
<code>/team <country></code>	Who owns a country & its pts.
<code>/help</code>	Full command list.

Admin only	
<code>/start_league</code>	Create the league for this chat.
<code>/start_draft</code>	Randomise order & open drafting.
<code>/undo_pick</code>	Undo the most recent pick.
<code>/set_result <home> <hs> <away> <as></code>	Record a match & award goal-diff pts. e.g. <code>/set_result england 3 ghana 0</code>
<code>/undo_result</code>	Undo the most recent match (refund its pts).
<code>/set_stage_reached <stage> <country> [more...]</code>	Award stage bonus to one or more countries. e.g. <code>/set_stage_reached round_of_16 spain england germany</code>

Tip: country names accept aliases. `/pick usa`, `/pick korea`, `/pick turkey`, `/pick ivory coast`, `/pick dr congo` all work. Use `/available` if you are unsure.

All scoring is **idempotent** - re-running `/set_result` or `/set_stage_reached` on the same match/country never double-counts. Admin can `/undo_pick` during the draft and `/undo_result` to roll back the most recent match.

Group stage opens 11 June 2026 | Final 19 July 2026 | Hosted by USA, Canada & Mexico
